Grant Recipients
The Charity Ball Association is pleased to award over $1.1 Million this year to the children of Bexar County served by these agencies:

Baptist Temple*
Wheelchair accessible playground for children of different abilities

Believe It Foundation*
Adaptive bikes for physically-challenged students in San Antonio schools

Boys & Girls Clubs of San Antonio
Transform eastside boxing gym into programming space for at-risk kids

Clarity Child Guidance Center
Renovate hospital unit with paint, flooring, anti-ligature furnishings and hardware

Family Service Association of San Antonio, Inc.
HVAC and other building improvements at Live Oak Head Start site

Guardian House
Repairs and replacement of furniture, shelving, duct work, lighting, painting for several rooms

Healy-Murphy Center
Refrigerators, washer, dryer, tables, chairs and other essentials for child development center

Mission Road Developmental Center
Furnish new campus home for children with severe intellectual and developmental disabilities

North East Educational Foundation*
Outdoor musical park at Camelot Elementary School

Roy Maas Youth Alternatives
Repair, replace, purchase recreational equipment at The Bridge & La Puerta

San Antonio Metropolitan Ministry, Inc. (SAMMinistries)
Refrigerators, pantries for 40 families; HVAC repair, flooring, painting

San Antonio Museum of Art
Interactive projects, tours and performances for children aged 1-10

San Antonio River Foundation*
Binoculars and digital cameras to be incorporated with environmental education programs

San Antonio Zoological Society
Renovations to Education Building

TEAMability, Inc.
Replacing aging components of overhead tracking system; tracks, motors & harnesses

YWCA San Antonio
New energy-efficient HVAC, lighting at Olga Madrid Center

Meet Xavier
Enhancing the lives of children

The Charity Ball Association first met Xavier Sanchez as a toddler when we featured children from Respite Care of San Antonio in the SBC photo in the 2001 Rotogravure. We were thrilled to meet him again as a young adult in 2019 when he spoke to our Charities committee on behalf of the Baptist Temple for their grant presentation. Baptist Temple was seeking (and received) a grant to fund an inclusive playground for Southeast San Antonio. He is a testament to the power of our charities and all they do for children to ensure that they become successful adults.

Xavier was born with a rare congenital anomaly that affected the growth of both arms and legs. Doctors discovered his condition during a routine sonogram at his mother’s five-month checkup. She was made aware of his condition early on and decided to never let his disability hold him back.

He has benefitted from several wonderful past and present Charity Ball grant recipients such as Respite Care of San Antonio, the Believe It Foundation, YMCA of Greater San Antonio, and Baptist Temple. Respite Care allowed him to grow in a safe environment that was equipped to handle his needs while his mother was at work. The Believe It Foundation not only provided scholarships for him each year for college, but also sent him to T Bar M camp which pushed him into independence. The YMCA of Greater San Antonio went above and beyond to find an instructor who taught him how to swim as well as give him his first job as a wellness coach. Most recently, he has become an advocate for a neighborhood accessible playground through Baptist Temple.

This past May, he graduated from San Antonio College with an Associate of Arts degree. He has been accepted and will be attending the University of Texas at San Antonio where he will pursue a Business Administration degree in Cyber Security.

Xavier is just one example of how the charitable agencies we fund enhance the lives of children. Support for The Charity Ball Association translates into agencies being able to provide a wide variety of much needed services and resources for the children of Bexar County. Children like Xavier grow up and impact the future in ways we cannot even begin to imagine.

Respite Care of San Antonio

Helping special kids learn and grow

Respite Care of San Antonio was founded in 1987 to provide support for families caring for a child or loved one with developmental disabilities. The original mission, to enhance the stability and nurturing opportunities of these families, is fulfilled through the provision of community based and overnight shelter services designed to give short-term relief to participating parents. In 1997 the mission expanded to provide care for children with special needs from throughout the state who have been taken into protective custody because of abuse and neglect.

Respite Care of San Antonio offers residential services at the Davidson Respite House Emergency Shelter. This warm, welcoming home provides short-term residential care for children with special needs, serving as a safe haven for children in need of loving hands and specialized care to aid in their physical and emotional healing. The state-of-the-art adapted playground is for children with even the most severe disabilities. The availability of specialized recreational equipment allows them – often for the first time in their lives – to swing, slide, and play just like any other child.

The Charity Ball Association has provided grants totaling almost $250K to Respite Care throughout the years. In 2018, they received a grant to resurface the playground at the Davidson Respite House Emergency Shelter.

Since 1997, the Children’s Bereavement Center of South Texas has been working toward the mission of fostering healing for grieving children and youth, their families and the community. They are the only organization of its kind in the San Antonio and South Texas region that is solely focused on the grief support needs of children, teens, and young adults who have suffered the death of a loved one. The center believes that each person’s journey through grief is unique and therefore deserving of a distinctive approach to healing. It is a safe place to feel sadness and hope.

In 2017, they began a collaboration with Wonders & Worries to offer the first support program for families in crisis due to a parent’s life-threatening diagnosis. This program ensures that children and teenagers can reach their full potential even though their parent is going through a serious illness. A parent’s illness can affect a child’s mental health, brain development, relationships, and school performance. With tools and guidance, families can strengthen their communication and effectively support each other. All services are provided free of charge and offered in both English and Spanish.

The Charity Ball Association has provided grants totaling over $120K to the Children’s Bereavement Center of South Texas throughout the years. The most recent grant funded replacement of the roof so that the Center could care for more children.

In Bexar County alone, over 120,000 children are considered food insecure. Of these, it is estimated that 10-20% deal with chronic hunger and lack adequate nutrition to lead a healthy, productive life. Although Federal Nutrition programs provide meals for students during the school week, weekends can be especially challenging for these children.

Snack Pak 4 Kids SA (SP4K-SA) was created to provide weekend food supplements to students who are identified by their teachers, creating food security for them over the weekend. With the support of partners, donors and volunteers of all ages, SP4K-SA works hard to be a learning enhancement tool for these kids, solving their weekend hunger issue so they can learn during the school week.

In 2018, they were a first time grant recipient from The Charity Ball Association to build capacity to serve more deprived children. The grant was used to purchase additional warehouse equipment and portable totes to increase ability to deliver nutritious food. It also funded an upgrade to the website that will increase visibility, funding opportunities and volunteer access, attracting more people to support the mission.

In addition, funds were raised from an innovative raffle called, "Give $10" which allows the winner to designate The Charity Ball Association children’s charity of their choice to receive the total of all the tickets sold. This year's winner, Michele Cadwallader, chose SP4K-SA as the winning charity to further their mission.

Jeanie Wyatt
In 2007, then President Kathy Mays Johnson started the first Advocacy Event to raise awareness of the needs of children in Bexar County. The first event honored Respite Care, an organization that provides support for families caring for a child or loved one with special needs. This year, Charity Ball Sponsors hosted 140 families from 8 different charities to an afternoon at Morgan’s Wonderland, sponsored by NuStar Energy Foundation. This annual event engages in a way that is fun for all family members while giving them information about the services and facilities in their neighborhood. This is what the Charity Ball Association does best – helping the children of Bexar County.
The DoSeum
San Antonio’s museum for kids

The DoSeum serves as an interactive learning laboratory for all young children from birth to age 10. Their exhibits and programs promote joyful learning, invite discovery, spark interest, and develop positive attitudes towards learning across critical content areas – including STEM, the arts, and literacy. There is also a large outdoor space with lots of water features, shade, and an ADA-accessible tree house. They hope each child who comes through their doors will be inspired by what they find!

As a museum for ALL of our city’s children, they are committed to offering low-cost or free programming to San Antonio-area children attending Title I schools and serve over 10,000 kids annually through these avenues. Every day, the DoSeum offers reduced admission fees to guests on public assistance. The DoSeum also offers monthly Family Nights with free admission for all on the first Tuesday of every month.

“By offering programs to ensure that The Doseum experience is available to all of our community’s children, the children’s museum empowers caregivers to create moments of joyful learning and discovery with their children on their own terms.”
- Ron Nirenberg, Mayor of San Antonio

The Charity Ball Association has provided grants totaling over $500K to The DoSeum (formerly the San Antonio Children’s Museum) throughout the years. In 2018, they received a grant to provide teachers from Title 1 schools with the training, tools, support and resources to implement and teach the Engineering is Elementary program in their classrooms.

The Baptist Temple campus is home to seven congregations, two schools and six service organizations that minister to the Southside San Antonio community at all stages of life. They minister to the immediate needs of people in their neighborhood through a food pantry, community garden, thrift store, and a free community meal on Wednesdays. Most recently, they developed a ministry to achieve long-term goals of community transformation.

Earlier this year, they built an inclusive playground to serve children ages 2 and younger, and the second phase will be for children ages 5 and up. This phase will include wheelchair access and features for the mobility impaired for children ages 5 and up. Baptist Temple is a first-time grant recipient from The Charity Ball Association and this grant will fund phase two of their wheelchair accessible playground for children of different abilities. A community survey estimated more than 1,000 children with disabilities live in the immediate vicinity of Baptist Temple.

Studies show that children with disabilities spend less than two hours a week with their peers outside classrooms. Inclusive playgrounds allow children of different ability levels to play together and are designed to inspire mutual understanding, friendships, and a sense of community.

Clarity Child Guidance Center
Healing young minds and hearts

Clarity Child Guidance Center exists to transform the lives of children and families. They are the only non-for-profit mental health treatment center specializing in children ages 3-17 in San Antonio and South Texas. Their inpatient and outpatient programs incorporate a range of services including crisis stabilization, psychiatric evaluations, and ongoing therapy.

As you walk through the Clarity campus, one of the most prominent visuals is the pinwheel. When children and families in distress arrive to Clarity, the pinwheel signifies that this is the place where they can “turn their luck around.” A pinwheel inspires ideas such as childhood innocence, unseen energy, wish fulfillment, and transformation. Clarity adopted the pinwheel to represent childhood, the innocence of the patients they treat, and of the recovered freedom we wish for them. The pinwheel reminds us that their patients are also kids, and that with children, there is always hope.

The Charity Ball Association has provided grants totaling over $500K to Clarity Child Guidance Center throughout the years, and they are one of our largest 2019 grant recipients. This year’s grant seeks to improve children’s mental health by renovating a hospital unit with paint, flooring, anti-ligature furnishings and hardware. Anti-ligature is essential in the design process for patients suffering from mental illness to eliminate points where a cord, rope, or bed sheet can be tied to a fixture that may result in self harm.

Children from Clarity Child Guidance Center, a 2019 Grant Recipient
In 1947, Dela and John White opened a school for children with hearing impairment out of a desire for their daughter to learn to talk. At the time, San Antonio schools did not teach children with hearing loss to speak. Mrs. White, Founder and Past President of The Charity Ball Association, enlisted various individuals and organizations to help build a school for her daughter and any other child with hearing loss. Seventy years later, this legacy of love lives on in the children and families that are a part of Sunshine Cottage.

At Sunshine Cottage, children with hearing loss become part of a community centered on enriching lives and improving listening, language and speech. Every child is embraced by dedicated staff and provided with the necessary skills to learn in a rich auditory-oral environment. All children and their families benefit from the outstanding educational environment and strong support system spanning their Sunshine Cottage experience.

The Charity Ball Association has provided grants totaling over $475K to Sunshine Cottage throughout the years. In 2018, the school received a grant to be used for Bone Anchored Hearing Aid (BAHA) loaners for hearing impaired children who cannot otherwise wear ‘in the ear’ or ‘behind the ear’ hearing aids.

Believe It Foundation
Bridging the gap to inclusion

In 2008, the Believe It Foundation was formed by Andrew McAllister to promote the inclusion of physically challenged children. Far too often, these children are needlessly excluded from opportunities to participate with others when a little extra effort is all that is necessary.

Attending a major sporting event, taking a family trip, participating in Scouting, or going to summer camp can all be life changing experiences for any child, especially for those that are physically challenged. “I know because I enjoyed these experiences and many more”, declares Andrew. “In every case, it was due to someone or some organization willing to be inclusive.”

This year, the Believe It Foundation is a first time grant recipient from The Charity Ball Association to expand Believe It Bikes into more schools in San Antonio. The adaptive bikes for physically-challenged children are transported between campuses and used during recess, bike rodeos, cultural arts parade and during PE as an addition to the curriculum. The Partners in PE buddies, an elected, mentorship class, come alongside and coach students with special needs in the Physical Education setting, helping to further promote the inclusion of these students and foster relationships beyond the classroom.

Any Woman Can
Empowering women to make informed decisions

Any Woman Can is a faith-based health center that offers services to support women in any decisions they may need to make or have already made regarding sexual health and unplanned pregnancy through a variety of free and confidential services. Their team of counselors, nurses, and client advocates walk alongside women in crisis so that these women will experience a comeback. Free services include pregnancy tests, limited 1st trimester sonograms, STI test, couples counseling, women's counseling, group therapy, and community resource referrals.

They offer more than just free services though. They also offer preventative support through counseling and fellowship. They help young women through tough situations by offering both support and medically accurate information.

In 2018, they were a first-time grant recipient from The Charity Ball Association for a pilot program, Stop the Traffic, to meet the emotional consequences of those who have been sexually abused. The grant funded training and tools necessary to reach girls who have suffered trauma through countless hours of counseling and consistency needed for relationship building.
